

CAPSTONE BUILDING CORP.

To members of the community,

Capstone Building intends to have an early morning concrete pour at the Edgewood Marta project located at the corner of La France and Whiteford Street on Friday morning, April 28th at 12:00 a.m. Concrete trucks and pump trucks will be running throughout the night until approximately 9:00 a.m. In order to comply with the city ordinance we have hired the Atlanta Police Department to assist with any type of traffic control or other issues in order to ensure that the process goes smoothly and quickly. Thank you to everyone in the Edgewood Community for your patience and understanding during this construction process.

Regards,

Kevin Radovich
